And he (my master) said, may Allah be pleased with him.

The words in praise of Allah ﷻ have to be taken seriously. And the Most Beautiful Names of Allah ﷻ are a sea to be immersed in. This is because Allah ﷻ is vast in His knowledge, and in His perception and in His Intention and in everything. And He is the Establisher of things. With His Authority, He establishes things. If He did not establish them, they would not be established. If He, the Glorified and the Exalted, did not bring them into existence, they would not exist. How Exalted is our Lord! If He, the Glorified and the Exalted, has given you something small from His knowledge, get help with it as a means to know Him. Otherwise, the sea of knowledge and the gate of knowledge is vast. My knowledge and your knowledge is as much as what a bird gets when it pecks from the sea.
