

Capitalists have it made so far

Capitalists fund election campaigns
of the major political parties
who do their bidding once elected
Politics in the service of business

The Government once elected
is beholden to them
and bails them out when needed
to the tune of billions
while ordinary people
huff and puff to no avail

Capitalists mint billions
in unearned income on the stock exchange
and lend billions to the government
to keep it debt-ridden
and beholden

They evade taxes
through well-known tax havens
and are into global financial corruption
through their banks
while the long arm of the law
which they have established
protects them
Ordinary people are given all the freedom
to scream themselves hoarse against this

They enslaved the Africans
colonized and neo-colonized whole continents
and plundered their resources

They have established Shylock in Palestine
who has become today's Pharaoh
as they have armed him to the teeth
He butchers the babies of Palestine
denies them food, water and electricity
and flouts the resolutions of the United Nations

with utter contempt
while his capitalist allies give him complete immunity
The end of Shylock
shall be the same as the end of the Pharaoh
total humiliation

Whatever happened to poor old Shakespeare
They buried him way back

They aim to maintain
their monopoly on global murder
while people of conscience
mock them
“Not in our name”
they shout and breathe hard
What else can they do?

They are the greatest
arms manufacturers
arms merchants
arms exporters
and the greatest producers
of weapons of mass destruction
while pretending to be saintly

Their capitalist media screams
that Muslims are terrorists
so their military illegally invades Muslim countries
killing countless
and reducing their cities to rubble
as they did before with German cities
Many Europeans know all about this
but they are helplessly on the same page

The rest of the world shudders at them

The capitalist media
promotes gay rights and gay parades
and the marriage of
a man to a man and
a woman to a woman

A large majority of the people are appalled
but these newly created dogmas
are forced down people's throats
with fanatic fervor to brainwash them
The deluded capitalist media
will fail in the end to have its way
and the people will triumph

The capitalist media knows
that many of their people
feed on a quota of hatred
so they gave it to them
against the blacks
for more than a hundred years
then against the Muslims
which has now worn thin
with a twinge of conscience
while some residual prejudice remains

So far the capitalists have it made
but soon the truth of Islam shall triumph
as in the time of the Prophet
peace be upon him
