

(Third Dars on Page 142): A narration by al-Habib's grandson, as-Sayyid Muhammad bin Mustafa Abu Numay رحمته الله

One night, al-Habib رحمته الله asked me to bring him cold water. He began by putting some of it on his head and his feet after which he drank from it a little. I was surprised and wondered what al-Habib رحمته الله was doing. My master, may Allah be pleased with him, had read my mind and told me that he was surprised just like me when once he saw his uncle 'Alawi bin Muhammad al-Haddad رحمته الله do just like that!
